

# COLORCLEAN iT

## Product Description & Application

ColourClean iT Paste is a deep penetrating paste for rapid change of colours.

## Features & Benefits

- Ready-to-use paste.
- Penetrative cleaning of settled and dried pigments on the rollers, ensuring single step cleaning.
- Ideal for critical colour changes in quickest time.
- Obtains very quick results when used on rollers free of long-term glaze build-up.

## Usage Instructions

- Clean the rollers normally at the end of the job.
- Disengage the wash-up blade and apply sufficient quantity of ColourKleen Paste on the rollers using a spatula or ink knife while the machine is idling.
- Run in the paste for a few minutes, to ensure even coverage across and around the entire surface of the rollers.
- Rinse away all loosened residue using a wash-up solvent.

## Packing

2.75 Lbs (1.25 Kgs)
