

Numero UNO 2K

Next - Generation Analog & Digital Negative-working Plates.

Coated on One side.

Product Description & Application :

Numero UNO 2K is a robust, reliable and long-run negative-working plate for both, analog and Computer-to-Conventional Plate (CtCP) systems. Traded by **4S Graphics** is suitable for all sheetfed and web offset applications. The ultra-short exposure time of **Numero UNO 2K** makes it ideal for the newspaper segment. The manufacturing technology and performance are similar to the world's most popular negative-working plate.

Features and Benefits

- Computerised Laser Inspection System ensures supply of only zero-defect plates.
- Each plate carries a printed identification number for quality assurance.
- Excellent resistance to plate-wear and pressroom chemicals enable run-lengths of 250,000 regularly.
- Ultra-short exposure time.
- High-yield, aqueous-based developer.
- Clean, near-white non-image areas.
- Advanced graining, anodising and coating technologies guarantee peak performance in platerooms and pressrooms.

Product Specifications

- **Plate Type** : Negative-working
- **Substrate** : Litho-grade aluminium, electrochemically grained and anodised
- **Gauge** : **0.15mm** (6 mil), **0.20mm**(8 mil) & **0.28mm**(12 mil)
- **Maximum Width** : 1500 mm
- **Safe Light** : Yellow
- **Spectral Sensitivity** : 360 - 420 nm
- **Recommended Ugra** : Solid 3; Clear 10
- **Recommended Stouffer**: Solid 4; Clear 11
- **Micro-lines Resolution** : 12 microns
- **Colour Change** : Green to Violet (on exposure)
- **Storage & Handling** : Unexposed plates must be stored in the original pack in a cool & dry environment. Recommended conditions : 20oC and 70% rH.
- **Shelf-life** : For optimum results use prior to the "best before date" specified on the pack label.
