

eLe Laser Plate - Maestro XP DS

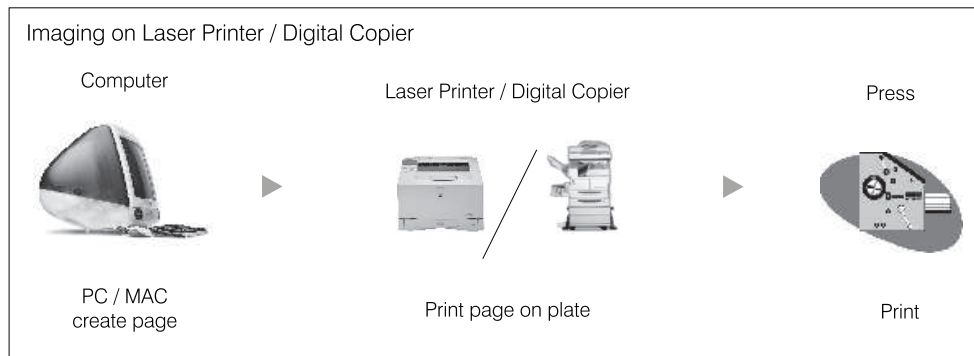

Maximum Performance Laser Plates for use in Laser Printers & Dry Toner Photocopiers

eLe Laser Plates - Maestro XP are manufactured in the world's most advanced eco friendly manufacturing plants by **TechNova Imaging Systems** for **4S Graphics**. The Laser plates are much cleaner and produce crisp superior images. These Laser Plates have a soft off white texture and have a least toner scatter. It can be imaged directly through a laser plotter or laser printer and does not require any exposing, processing or fusing. Just image the plate mount on the press and print.

Highlights :

- Coating on both sides to facilitate imaging and printing on either side.
- Inventive surface coating to give long run length upto 5,000 impressions on each side of the plate.
- Innovative anti-grease layer safeguards the surface from finger prints or marks.
- The plate DOES NOT require baking or cleaning.
- Universally compatible with most of the Laser Printer and Laser Plotters.

Workflow :

Product Specifications :

- BASE** : Dimensionally Stable Polyester.
SURFACE : Matt Coated on both Sides
THICKNESS : 100 microns (4 mil)
IMPRESSIONS : 5,000 impression or more (under recommended conditions)

Sizes Available :

- 216x381mm
- 279x457mm
- 305x457mm
- 219x381mm
- 279x470mm
- 330x470mm
- 254x381mm
- 286x470mm
- 330x492mm
- 254x394mm
- 298x492mm
- 330x505mm
