

Graffiti Synthetic FROSTED (FILM)

4.0mil • 8.0mil

Graffiti Synthetic Backlit Films are laser printer-compatible, translucent polyester sheet made for strength & durability. They are 100% waterproof & tear resistant film, and have a slight frosty texture, which makes them an elegant companion for page dividers and fancy business cards. They are also very durable and can stand harshest of the environmental conditions.

Product Specifications:

- Base : PET-Polyester Film
- Thickness Available : 4.0 mil (100 microns) • 8 mil (200microns)
- Surface Finish : Translucent - Frosted
- Packing : 50 Sheets / Packet
- Sizes Available : 8.5" x 11" • 11" x 17" • 12" x 18" • 13" x 19"
Wide Range of Custom Sizes available. Custom Rolls are also available.

Product Highlights:

- PET Base provides Tear Resistance, thermal stability & long-term durability.
- Outstanding toner adhesion for sharp & high definition images.
- Excellent anti-static properties for dust free outputs.
- Toner receptive coating allows writable surface allowing writing on the paper like a regular paper.
- High Rigidity makes for lay flat prints, ideal for indoor/outdoor display applications.

Product Benefits:

- **Weather Proof:** withstands rain, heat, & temperature.
- **Durable:** Tear Resistant, Stain Resistant & Sweat Resistant.
- **Resistance:** High heat resistant, 475° F melting point allows for use in wide range of laser printers and applications.
- **High Definition Image Quality:** Toner Receptive Coating allows high image quality of finished print job.

Product Application:

- Business Cards
- GIS Map Overlays.
- CAD Drawings for on site use.
- Medical Charts
- Electronic Appliance Cards for Circuit Boards
- Positives for Screen Printing & Offset Printing.
- Page Dividers for Books
- Separator sheet for Wedding Cards.
